

A children's story series  
from the mind of a real preschooler!

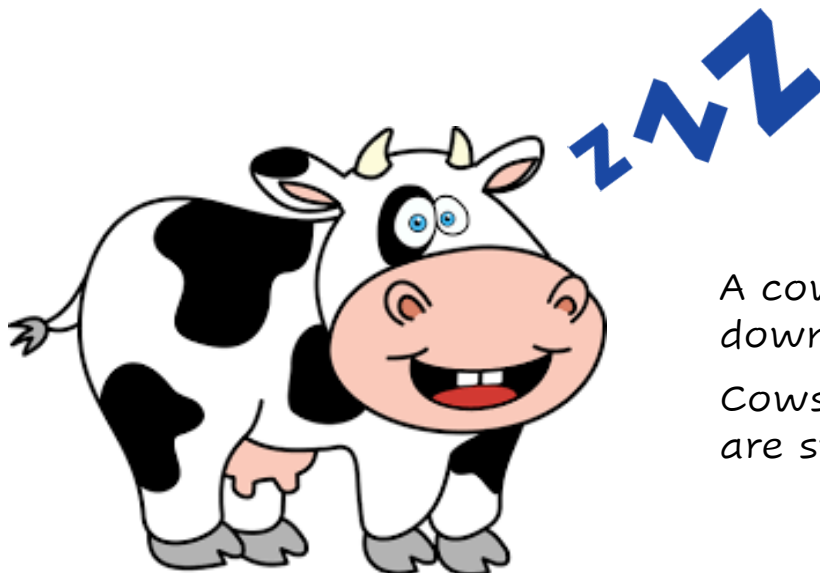

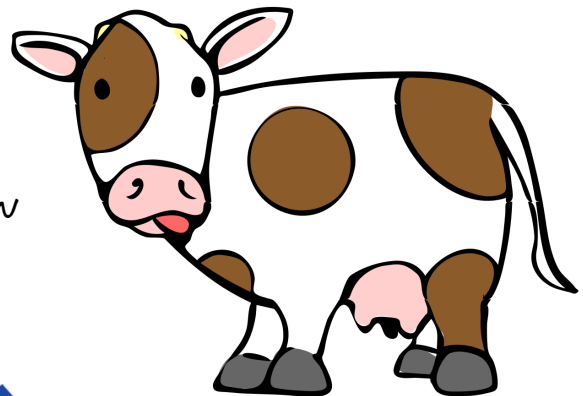

# COW APPRECIATION DAY

## *Cow Facts*

It used to take one person **one hour** to milk 6 cows by hand. Today, one person can milk about **100 cows** in **one hour** using a milking machine.

A cow has **32** teeth. And they chew about **50** times in a minute. Cows spend about **8** hours a day eating.

A cow will stand up and lay down about **14** times a day.

Cows can sleep while they are standing up!
